THE increasing popularity and almost universal use I of these Extracts in sections of the country where they have been introduced is proof of their superiority over all others now made. Their excellence consists in their purity and strength. Ice Cream Manufacturers, Hotel and Housekeepers certify that in actual use they are fifty per ct. cheaper than the compounds sold under the assumed name of flavors. These facts are worthy of the attention of housekeepers and all whouse flavors.

MISCELLANEOUS.

The Naturalist's Agency, As been established at 1223 Bennent Aren
ue, Philadelphia, for the purpose of giving
conectors of objects of Natural History an opporunity of buying, selling or exchanging their duplicates or collections.
I have now over 38 tons, and nearly \$25,000
worth of Mimerals on hand. I have sold ever \$14,000 worth since the 17th day of January, when the
first box was put into my establishment. Yesterday, October 31st, my cash sales and cash receipts
were over \$700.

first box was put into my catablishment. Jesterday, October 31st, my cash sales and cash receipts were over \$700.

Our Minkealogical Catalogue, illustrated by over \$300 worth of engravings, is now ready for distribution. Free to all customers. To others on receipt of 10 cents for postage. I desire especially to call attention to my remarkably fine specimens of Amazon Stone, of which I have or have had nine-tenths of all the specimens ever found. I have made six trips to the locality and think I may safely say that no more will be found, Good crystals from 15 cents to \$1.00 each.

My Titunium Minerals are the finest ever knows. Besides the Hydrated Titanic Acid, Hydrotitanite, a mineral recently analyzed by Dr. Koenig, of Pennsylvania University. I have also remarkably well crystalized Perofakite, Brookites of enormous size, Rutiles geniculated till they form a circle, Schorlomite, Warwickite, dec.

In Peganite we have large surfaces covered with minute bright green crystals. We have the most beautiful green wavelitte ever known, colored by vanadic acid.

The Columbite crystals that occur in the Amazon Stone are very interesting. The Graphite from New Mexico occurs in havesgonal prisms.

The Kmbolite from New Mexico is the best ever found at any locality. We are selling Amethyst at far lower prices than it was ever sold at before. We have sold over \$1,000 worth since the 10th of July.
